

# Good Fonts And Where To Find Them

System fonts: don't use them

# Good fonts

- Have full character sets
- Have opentype features
- Found on a professional site
- Designed by a type designer
- Have some explanation of the design inspiration

# Bad fonts

- Have limited character sets
- Have no opentype features
- Often on a sketchy or cheap looking website
- May have stray marks, pixelation, or signs of lazy digitization

# Good (low-cost) font resources
